ADD-ON COMPACTOR

READY TO OPERATE NOW

The APA 55/46, APA 55/56 and APA 55/64 series is ideal for work with excavators above 4- to 12- tonnes. Their efficient size makes these compactors exceptionally versatile. The Add-On Compactors can be installed quickly with commonly used fast-change systems.

The APA 55/64 is an excellent choice for urban sites thanks to its enlarged 640 mm (25.2 in) base plate.

PATENTED VIBRATION LIMITATION

- High-resistance rubber shock absorbers cushion vibrations to protect the excavator and operator

TWIN-SHAFT EXCITER

- High frequency and low amplitude to protect adjacent buildings
- Maintenance-free

SAFETY

- For work on steep inclines where compaction with a vibratory plate is not safe
- Trench compaction from a safe distance

THE MACHINE THAT MATCHES

- The Add-On Compactor is compatible with all commonly used fast change systems
- With the matching fast change system, the Add-On Compactor is connected and ready to operate within a few seconds
- Mechanical and hydraulic rotators are available

RUGGED DESIGN

- The housing protects the central exciter unit
- Bearing bushings protect the housing against vibrations and prevent direct contact by metal surfaces under high pressure

APPLICATIONS

- Add-On Compactor for excavators in the 4- to 12-tonne class
- Pipeline and canal construction
- Slope and hillside compaction
- Confined work spaces, manhole compaction
- Structure backfill work
- Landfill
- Track construction
